RAINED ON CAMPERS

First Bad Weather For the Striking Miners.

BUT VERY LITTLE ACCOMPLISHED.

The Company Claims to Have More Men at Work Than Usual and This Is Not Denied by the Strikers—A Crisis Approaching and a Few More Days Will Decide the Struggle.

PITTSBURG, Aug. 11.—A crisis is fast approaching in the miners' movement against the New York and Cleveland Gas Coal company. The next few days should determine whether or not the strikers' object will be realized. Yesterday's work, while not viewed in a disappointing light by the campers at Turtle Creek, Sandy Creek and Plum Creek, yet the happenings were not of the most encouraging sort. To begin with they had to contend with their first spell of bad weather. A heavy rain drenched the camps and prevented the marchers from carrying out their regular program. At Plum Creek the rain and continued absence of a band kept the men in their quarters with the result that little if any missionary work was undertaken.

The storm also had the effect of preventing the march to the Spring Hill mines, between Wilmerding and Wall Station, which are owned by Alexander Dempster. The only march of the day was made by the 150 men at Camp Determination, who left camp shortly after 5 o'clock, and marching close to the Oak Hill tipples spent two hours in the vicinity of the miners' homes. There was not even ordinary excitement attached to the invasion along Thompson's Run.

A summary of the day's develop finds conditions much the same as they were Monday, save that the company claims to have made a further break in the strikers' ranks at Turtle Creek and Sandy Creek.

The Plum Creek mine was running considerable coal yesterday, and the number of men reported at work equals that of Monday. The failure to hold a meeting at Camp Solution was another disappointing feature of the day, and the men are loudly clamoring for the presence of the officials.

Yesterday afternoon District President Pat Dolan accused the operators of the Pittsburgh district with having broken faith with the striking miners in this district. He also outlined the policy to be pursued by the United Mine Workers in their fight into the central Pennsylvania district, where it is proposed to close down all the mines. He can not predict when the strike will be settled, but claims his organization can stand the strike until the last of September. The operators, he said, had promised to pay the price when the supply of Dearmit's mines had been cut off. This has been done, but the operators had failed to keep their part of the contract.

The miners who have been working regularly at Oak Hill mines were paid yesterday afternoon. Those who joined the strikers did not get their cash, the company withholding it as under the contract the men forfeited their wages by striking. There was no excitement. Between 200 and 300 employees were on hand, but few of them received any money. Mr. Dearmit made a speech to the men, telling them he sympathized with them and that the money was withheld, not because the company wanted it, but because it had to carry out the terms of the contract. He denounced the midnight marching and the encampment and said it was a blot upon the history of the country, that the laws are not enforced and such movements stopped.

An epidemic of typhoid fever prevails in the Turtle Creek Valley, and it is feared that the disease will break out in the miners' camp. The health authorities have warned the citizens not to use the water from Turtle Creek, as it is known to contain typhoid germs. Turtle Creek is the only stream within several miles of the camp, and the strikers are compelled to use the water for drinking, cooking and bathing purposes.

BOGGS RUN MINERS OUT.

The Suspension Practically Complete in the Wheeling District Railroad Mines.

WHEELING, Aug. 11.—Wheeling was the scene of a peaceable invasion from Ohio yesterday. A small army of Ohio side striking miners from Wheeling Creek, on the Cleveland, Lorain and Wheeling road, numbering 127, marched through the city early in the morning to the Boggs Run mines. The Boggs Run men got wind of the invasion and only six or eight arrived to go to work. These were taken in hand by the visitors and persuaded to sign a paper to stay out. Later in the day the other Boggs Run men were seen and agreed to join the strike. This makes the suspension practically complete in the Wheeling district railroad mines.

The strikers then proceeded to the Belmont and Riverside mill mines and made a demonstration there. A committee of the strikers and one representing the mill miners met and it was decided that the question of these men joining the strike would be determined by President Ratchford. If this course is pursued it will throw thousands out of work.

The action of the Bellaire peddling banks in shutting down may be rescinded as the Ohio strike leaders are not in favor of shutting down the mill banks.

The Wegees miners have decided to join the strike. This and the Heathington mines supply steamboats with fuel.

More Miners Join the Strike.

CHARLESTON, W. Va., Aug. 11.—Over 200 coal diggers from the mines in the vicinity of Mountgomery, joined the strikers yesterday. The strikers formed a procession at Montgomery and went up the line to the Chesapeake and Ohio railway as far as Mount Carbon where they are encamped. There are about 400 in the camp. Twelve mines in Kanawha valley are idle and the number of men that quit work in the Kanawha valley within the last three weeks is about 800. All of the mines on New river with the exception of the Royal are still running.

No Troops Called Out.

HARRISBURG, Penn., Aug. 11.—Adjutant General Stewart is greatly dispeased because of the numerous reports to the effect that certain officers of the national guard have been issuing orders to regiments and companies to get ready for anticipated trouble with the striking miners. He says he does not believe any such orders have been given. "I have issued nothing officially, and nothing suggestive of calling out the troops has been given out from my department."

OHIO MINERS.

Crusade on the Silver Creek Mines Had the Desired Effect.

AKRON, O., Aug. 11.—The crusade of the Massillon miners into the Silver creek sub-district had the desired effect. Not a dozen men are working today in that part of the Massillon field. The Massillon miners, a thousand strong, arrived in wagons and on foot at Silver creek, just as the men were going to work. They surrounded the pit mouths at the Loomis and Card mines and refused to allow the men to go below. Forty men had been at work at the Loomis mine and 20 at Cards'.

When the object of the visit to Silver creek had been accomplished the Massillon miners marched to Doylestown and forced 12 men out at Hall's mine and 20 out on the Mobile mine. Notice was served on all wholesale and even the retail mines in the sub-district that work must be stopped. A dispensation was given the retailers to mine coal for the threshing machines.

ILLINOIS MINERS.

The Town of Coffeen Under Martial Law and Troubled.

COFFEEN, Ill., Aug. 11.—This town is under martial law. A force of 23 armed deputy sheriffs is guarding the town and particularly the property of the Coffeen Coal and Cooper company.

One hundred and twenty-five men were at work in the shaft yesterday under protection of an armed force. The miners are encamped 500 strong in the woods just west of town. They have been forbidden to enter the village under penalty of arrest.

Advices received by the sheriff from Hillsborough state that fully 200 strikers are coming from Auburn, Girard and other mining towns to the north. Sheriff Randle has ordered out 150 men armed, to reinforce the guard protecting the town against this invasion. He also telegraphed to Nokomis for 50 more men.

March on Murphysborough.

ST. LOUIS, Aug. 11.—More than 150 Belleville (Ill.) miners have left there and began their march to Murphysborough. At Duqnoin, Lebanon and other mining towns along their way the marchers expect to receive accessions to their ranks. A stand will be made at Murphysborough, where a peaceable attempt will be made to induce the working miners to strike.

Miners Marching Against Winchesters. SPRINGFIELD, Ills., Aug. 11.—Springfield miners will march to Decatur 700 strong. They will be joined by delegations en route. Sheriff Nicholson of Mason county has sworn in 100 deputies and has 35 repeating Winchesters with which he says he will keep the peace and all of the miners who wish to do so can work regardless of the army who will be encamped outside of Decatur.

"PUMPED UP" THE BABY.

A Boy Uses a Bicycle Pump on His Little Brother.

PITTSBURG, Aug. 11.—Yesterday Mrs. George Ruthman of Beaver Falls heard a peculiar noise on the back porch of her residence. She found her two sons, one age 7 and the other 1 year old, in a corner.

The babe was on his back. The elder brother had inserted the tube of a bicycle pump in the baby's mouth and was filling him full of wind as fast as he could work the pump handle.

The infant was unconscious and its little stomach was inflated like a balloon. The mother pulled the tube from the child's mouth and the air followed with a sharp sound like the exhaust of an airbrake on a railway train. The baby recovered.

SAW ANDREE'S BALLOON COLLAPSED.

LONDON, Aug. 11.—According to a dispatch to the Daily Mail from Copenhagen, Captain Mortenson of the bark Asgar, bound from Dublin to Onega, at the mouth of the Onega river, on the White sea, reports that on July 13, when about two day's sail east of North Cape, the northernmost point of Europe, then being in Arctic waters, he saw a collapsed balloon, which he believed to be Herr Andree's.

Attempted Wholesale Poisoning.

CIRCLEVILLE, O., Aug. 11.—Some miscreant placed strichnine in a water bucket at the residence of John Stout, but, fortunately, it was noticed before any of the family had partaken of the water.

NOW ANOTHER NAME

Senor Canovas' Murderer Fully Identified.

HIS NAME IS MICHEL ANGIOLINO.

He Is Thirty-Three Years Old and Has a Bad Military Record in Italy—He Will Be Tried by Courtmartial—Arrangements For the Funeral of the Late Premier—Other News From Spain.

MADRID, Aug. 10.—A dispatch from Luene, Italy, says that the Italian police have identified Golli, the assassin of Senor Canovas, as Michel Angiolino. He is 33 years of age, and was born at Eoggia, capital of the province of that name in the Apulian plain.

His military record was very bad. He proved an indifferent and disobedient soldier, and was sent for three years' service in the disciplinary battalion. Subsequently he became a compositor.

In April, 1896, he was sent to 18 months' imprisonment for disseminating anarchist propaganda, but after serving a part of the time he escaped to Russia. He comes of an honest family. His father, who is a tailor, is grie-

striken by the crime of the son.

The provincial and communal councils of Boggia have sent telegrams of condolence to the Spanish government, denouncing the assassin.

The government has decided to try the assassin by courtmartial. He still defiantly declares that other startling crimes will follow. The police and government detectives are acting with redoubled vigilance, and the government is in communication with foreign capitals on the question of the surveillance of anarchists.

The queen regent has decreed that the military honors observed in the case of the funeral of a marshal shall be accorded to the body of the late premier. She has ordered a special mass for the repose of his soul.

At the special request of Senora Canovas the remains will lie in state at the private instead of the official residence of the deceased. The government plan was for a lying in state at the official residence.

The pall-bearers will be an academician, an admiral, the president of the senate, a Knight of the Golden Fleece and Marshal Martinez de Campos. The burial will take place in the Pantheon. Funeral services will take place simultaneously in all the churches throughout the country, and the official mourning will last three days.

The queen regent is greatly affected by the tragedy, and is still confined to her room.

It is understood that General Martinez Campos is willing to go to Cuba should the cabinet decide to recall Captain General Weyler. There are also rumors that General Polavieja, former governor of the Philippines, will be invited to succeed Weyler. But these are mere rumors and thus far there are no indications of abrupt changes either in the administration of Cuba or in the constitution of the cabinet. Senor Sastaga, Senor Moret Y Prendergast and Marshal Campos, with other statesmen and generals, favor the retention of the present cabinet long enough to reorganize and to conciliate the Conservative groups.

CUBA COMMUNICATION CUT OFF.

Washington Officials Prepared For Startling News From There.

ST. LOUIS, Aug. 11.—A Globe-Democrat Washington special says: Communication between the United States and Cuba is suspended. A cable connects Key West with Havana. It might as well have been cut in mid gulf for the purpose it served. The Cuban end of the cable is in possession of Spanish officers.

Immediately following the news of Canovas' assassination Cuba was isolated from the rest of the world. The state department is prepared for most startling news from Cuba. Diplomacy prevents utterance for publication, but privately the leading officials at the department express the opinion that the end of the war is near.

Thousands of Fish Poisoned.

SHELBYVILLE, Ind., Aug. 11.—Great numbers of dead fish are being taken from Big Blue river. Carp began gathering near the dams of the river a few days ago, and were taken out with surprising ease in large numbers. It is now known that the easily-caught fish were nearly dead from poison, and it is reported that the pool of the Cartage strawboard works, situated above Morristown, has broken, turning into the river the poison which has killed the fish by the wholesale. An investigation is to be made, for it is said that this pool breaks about this season every year.

To Clear Rev. Hinshaw.

LAPORTE, Ind., Aug. 11.—Noah Baney, the convict who confessed to be the murderer of Mrs. Hinshaw, wife of the Belleville clergyman who is serving a life sentence, has been released from the Prison North by order of Governor Mount, and, in company of Hinshaw's attorney, left for the scene of the tragedy. Baney has been granted a parole of five days, and the purpose of his visit to Belleville, where the crime was committed, will be to corroborate, if possible, the confession in some of the details.

A Noted Race Horse Dead.

JEFFERSONVILLE, Ind., Aug. 11.—Mammouth, the noted race horse, owned by O. O. West, valued at \$5,000, died yesterday of injuries caused by running into a wire fence.

DON'T GO TO ALASKA.

This Is the Advice of C. N. Bliss, Secretary of the Interior.

WASHINGTON, Aug. 11.—Secretary Bliss has taken cognizance of the rush to the Klondike gold fields and Alaska, and has issued the following warning to the general public:

To Whom It May Concern:

In view of information received at this department that 3,000 persons with 2,000 tons of baggage and freight are now waiting at the entrance to White Pass in Alaska for an opportunity to cross the mountains to the Yukon river, and that many more are preparing to join them, I deem it proper to call the attention of all who contemplate making that trip to the exposure, privation, suffering and danger incident thereto at this advanced period of the season, even if they should succeed in crossing the mountains. To reach Dawson City, when over the pass, 700 miles of difficult navigation on the Yukon river, without adequate means of transportation, will still be before them, and it is doubtful if the journey can be completed before the river is closed by ice.

I am moved to draw public notice to these conditions by the gravity of the possible consequences to people detained in the mountainous wilderness during five or six months of an Arctic winter, where no relief can reach them, however great the need.

C. N. BLISS.

Secretary of the Interior.

EXECUTED BY ELECTRICITY.

Frank Conroy Put to Death in the Clinton Prison in Dannemora, N. Y.

DANNEMORA, N. Y., Aug. 11.—Frank C. Conroy, the Ogdensburg wife-murderer, was executed by electricity at Clinton prison yesterday. Conroy was pronounced dead in four and a half minutes after the first shock. He walked between Fathers Belanger and Cottier unsupported to the chair, his eyes upon the crucifix and praying. He met his fate calmly.

On the morning of May 20, 1896, Frank Conroy returned to his home in Ogdensburg from Montreal. Walking into the house he accused his wife of unfaithfulness. Angered at her denials, he snatched up a carving knife and hacked head and throat until she was dead. Conroy's two little daughters, one 5 and the other 7 years old, witnessed the butchery. Conroy gave himself up at once, saying he was satisfied to take his punishment. Conroy had considerable local reputation as an athlete and drunkard.

BREAK FOR LIBERTY.

Life Convict Fatally Shot, His Brother and Two Guards Wounded.

BOSTON, Aug. 11.—While attempting to escape from the state prison at Charlestown, just before noon yesterday, Herbert Willis, the young Taunton desperado, who was recently sentenced to life imprisonment for the murder of Fred N. Strange, was fatally injured, and his brother, Edward, who assisted him in his break for liberty, was seriously wounded by the guards. Two of the latter were wounded by the Willis brothers.

Edward Willis, who had gone into the prison to visit his brother, had contrived to pass a revolver to Herbert, retaining a weapon himself, and with these they tried to overcome the guards.

Shots Hit Wife and Killed Himself.

NEW YORK, Aug. 11.—William W. Morris, aged 53 years, who was released from Sing Sing on Aug. 1, had a quarrel with his wife, Margaret, at her home in Brooklyn yesterday, and fired two shots at her from a pistol. Morris then shot himself twice in the head, dying almost instantly. The woman will recover. Her refusal to live with him after his prison service caused the shooting.

Peace Negotiations Again Delayed.

CONSTANTINOPLE, Aug. 11.—The peace conference met again yesterday at Topkane Kiosk, and Tewfik Pasha, Turkish minister for foreign affairs, submitted fresh proposals regarding the evacuation of Thessaly, the indemnity and other issues involved. This is likely to cause a tedious delay.

Three People Killed by Lightning.

LANCASTER, Tex., Aug. 11.—Lightning struck and killed N. O. Lowery, his son and A. M. Wright here yesterday. They took refuge from the rain in Wright's barn. After the storm was over all three were found dead. The barn was only slightly damaged.

Fire in Drugstore.

DALLAS, Aug. 11.—Fire yesterday afternoon destroyed the stock of the Palace drugstore and damaged the building. Masonic lodge rooms on the third floor were seriously damaged by smoke and water. Total loss exceeds \$65,000.

A Detective Uses His Revolver.

FORT WAYNE, Aug. 11.—Detective Fox of the Pennsylvania company engaged in a shooting affray with Wesley Judd, a negro whom he was trying to arrest. Judd was badly injured, a bullet entering his thigh. Fox escaped.

Republican Convention in Kentucky.

LOUISVILLE, Aug. 11.—James G. Bailey of Magoffin county was nominated for clerk of the court of appeals by the Republican state convention which met here yesterday. The convention was a quiet one.

Chicago Failure.

CHICAGO, Aug. 11.—Tho C. H. Gurley company, heavy hardware, has failed under a judgment by confession obtained by a creditor. The liabilities are \$60,000; assets slightly more.

INDICATIONS.—Generally fair weather; slightly cooler; fresh northwesterly winds, diminishing.

Our manufacturing exports for the year 1897 (ending June 30) were \$276,357,000, or 26.75 per cent. of the total. This is not only the largest total export of manufactured goods reported, but it is the largest percentage of the gross total. In 1892 the exports of manufactured goods were only 16.61 per cent. of the total. "The phenomenal increase was undoubtedly due to the effect of a lower tariff in encouraging American manufacturers to seek a foreign market," says the New York World.

Mr. Manning also recommends the retirement of the greenbacks and the use of silver as the medium of such retraction. There is not and there can not be any possibility, any party in the United States which would venture to connect itself with such a policy.

The above appeared in the Louisville Courier-Journal a few years ago. Time or something else has wrought a wonderful change. The Dispatch says: "There is a so-called party which advocates this very demand, and the editor of the Courier-Journal aspires to be its candidate for the Presidency."

PHILADELPHIA reported Tuesday that on the preceding day forty steamers had been chartered there to load grain at different points for export, and that it would take 4,000,000 bushels of grain to fill these charters. This is the heaviest day's business on record, but in two weeks the total amount of grain for which shipment had been provided was not less than 20,000,000 bushels. This is something more than promise of prosperity. It is a beginning of prosperity with a guarantee of a very steady continuance. New York World.

The shortage in the grain crop in Europe and other foreign countries is the principal cause in the advance in the price of wheat in the United States, and the resulting "good times" for our farmers. But every little cross-roads Republican editor is attributing the whole thing to the Republican administration. Wonder what wheat would be bringing now if there had been an average crop in foreign countries? It would be about as low as the price of silver.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

THE PENSION LIST.

Some Startling Figures Presented on This Subject by the New York Sun.

NEW YORK, Aug. 8.—The Sun in an editorial this morning bunches some pension facts in a way that make a sensation, as the inference drawn is that a great proportion of pensioners are unworthy of Government bounty and that the list should be cut down. From figures recently published, the Sun shows that at the present rate of expenditure the annual pension list has been consuming more than nine-tenths of all the revenue taken in at all of the custom houses of the United States; or, again, if the custom duties are considered as paying the general expenses of the Government, the pensions have been using up not less than 96 per cent. of the total receipts from internal revenue.

Thirty-two years after the end of the civil war the number of pensioners, on account of that war, exceeds by about a quarter of a million the number of soldiers actually engaged in service in all the armies of the Government at any time between the firing upon Sumter and the surrender of Lee at Appomattox. The army of pensioners, after a third of a century, is between 30 and 40 per cent. larger than the fighting army at any one time during the war. We have already paid in pensions since the war two billion dollars, or two-thirds as much as it cost the Government to carry on the war.

The intimation of gigantic fraud, while not put in those words, is made plain by the Sun.

"June" Green Held in Sum of 500 For Cutting and Killing George Porter Saturday Night.

The examining trial of Juve Green, who killed George Porter near Moransburg Saturday night, came off Tuesday before Judge Hutchins.

Judge Cole, Judge Phister and Mr. Allan D. Cole appeared for defendant, while County Attorney Adair looked after the prosecution.

The evidence disclosed the fact that Dr. Scott and First Assistant Physician Rhorer, of the Lexington Insane Asylum, must go, and that Gov. Bradley is just waiting for the completion of the trial of Dr. Rhorer on the charge of abstracting private papers from Scott's desk before taking action.

GEORGE W. ROGERS.

One of Maysville's Popular Citizens Dies Suddenly While En Route Home From Esculapia Springs.

The community was shocked Tuesday afternoon by the sad news of the sudden death of Mr. George W. Rogers.

Mr. Rogers had been ill for several months and it was known that his condition was very serious, yet his relatives and many friends were not expecting the end would come so soon, and so suddenly.

Deceased had been at Esculapia Springs several weeks. For some time after reaching the springs his condition seemed to improve, and he was able to take daily walks in the neighborhood. But this improvement proved only temporary. A week or so ago there was a change for the worse, and he had been gradually declining. Monday it was thought best to remove him to his home in this city. A conveyance was fitted up with mattress and everything necessary for his comfort, and in this he was placed yesterday morning by Messrs. H. G. Wells and Jos. D. Wood, who had driven through to the springs the evening before. Accompanied by his sister, Mrs. Thomas Prather, whose devoted hands had ministered so faithfully to his wants during his long illness, the party started on the return trip.

About half the journey was made without incident, but a short distance beyond Bridgeport Mr. Rogers complained of a pain over the heart. This soon left him, however. Shortly after he complained of his stomach and some soda and water was given him. He soon felt much better and spoke of how well he was feeling and how well he was standing the ride. The trip was then resumed, but the party had gone only a short distance when deceased was suddenly stricken with heart failure, and peacefully breathed his last a moment or so later.

It was about 11 o'clock when his death occurred. The remains were brought at once to this city and taken to the family residence on East Third street, where they were prepared for burial.

The funeral occurs at 9 a. m. Thursday at the residence, with services by Rev. F. W. Harrop, Prelate of Maysville Commandery No. 10, Knight Templar, of which deceased was an honored member. The Commandery will have charge of the services. Interment in the Maysville Cemetery.

Deceased was forty-eight years of age,

was a native of this county, and was one of six sons born to the James N. and Lucinda Rogers. His mother, one sister, Mrs. Prather, and one brother, Mr. Wm. Rogers, survive him.

Deceased was Post Eminent Commander of Maysville Commandery No. 10 K. T., Past High Priest of Maysville Chapter, R. A. m., Past Master of Confidence Lodge No. 52, F. and A. M., and Past Grand of DeKalb Lodge No. 12, I. C. O. F. He was one of the incorporators of the People's Building Association and a member of the Board of Directors.

Deceased had been connected with the wholesale liquor trade for years, and was senior member of the firm of George W. Rogers & Co. at the time of his death.

Acetylene Gas.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines. Many think

when it was said to the woman: "In sorrow shalt bring forth children" that a permanent curse was pronounced, but such is not the case. True, danger lurk in the pathway of the expectant Mother and should be avoided.

"Mother's Friend"

so prepares the system for the change taking place that the final hour is robbed of all danger and pain. Its use insures safety to life of both Mother and child, and makes childbirth easy and recovery more rapid.

"Mother's Friend" is the greatest remedy ever put on the market, and my customers praise it highly."—W. H. KING & CO., Whitewright, Tex.

EXPLOSION OF DYNAMITE.

Two Men Frightfully Injured in a Stone Quarry Accident.

EASTON, Pa., Aug. 11.—Two men were frightfully injured at the stone quarry back of Mount Jefferson yesterday afternoon. Martin Lillis and George Weir of South Easton had laid a 12-foot hole with dynamite, but something occurred to prevent the blast going off, and the men went back and began digging out the load with a 10-foot iron bar. When the bar struck the dynamite, there was a terrific explosion and the men were sent flying through the air.

The other men in the quarry ran to their assistance after they had recovered from the shock, and found them mangled and bleeding from numerous ugly wounds. Lillis' right hand and Weir's left hand were blown completely off and the fingers of their other hand hung by shreds of torn flesh. They will probably die.

Laying a Pipe Line.

ALEXANDRIA, Ind., Aug. 11.—Seventy-five car tanks were loaded with oil in the past week, making the largest week's shipment since the opening of this field. The Buckeye Pipe Line company, better known as the Standard Oil company, has commenced laying a pipe line between this city and Montpelier, where it will be connected with the company's main line. The rapid increase in the output of oil will make this line almost a necessity as well as a saving in the cost of transportation. A large pumping station will also be built here.

Successor to Judge Holman Elected.

INDIANAPOLIS, Aug. 11.—The election for congressman in the Fourth Indiana district, recently represented by Judge W. S. Holman, whose death occurred in Washington last April was held yesterday. There were three candidates, Marion Griffith, Democrat; Frank Lee, Republican, and M. W. Browder, Populists. About a two-thirds vote was polled. Returns have been very slow in coming in, but the indications are that Mr. Griffith has been successful by a plurality of from 1,000 to 1,400.

Russian Town Destroyed by Fire.
